reimagining what a lever-actuated
espresso machine can be.

Available Configurations: LEVA

Available Number of Groups: 2 | 3

Leva rethinks the form of a lever espresso machine. No longer must safety be compromised in order for a café to use lever technology. The lever group gives line of sight to the captivating breakthrough mechanics. Leva features groundbreaking design, and technology in a

mechanical, reliable, and user friendly machine. The innovative design reduces the force required to operate the machine by almost 50% compared to a traditional lever machine, while also introducing a safety clutch system. Leva machine makes it possible to adjust both

the pre-infusion pressure and the maximum extraction pressure delivered by the lever piston, allowing to personalize coffee brewing and attain consistent shots. With over 2500 hours of testing, Leva sets a new standard for the reliability of a mechanical system.
